

# The Most Powerful One-Stop Data Provider for Greater China Region

Lucky Tone Communications Ltd.  
(HK)

Network Telecommunication Co., Ltd.  
(TW)

## Internet Access

On the strength of the flourishing of the e-business worldwide, we provide quality and excellent Internet Access service for our customers to connect with the international network and grasp up the opportunities of Greater China and global marketing business

*(Service area: China / Hong Kong / Taiwan / Global, will be extended to Vietnam, Cambodia, Thailand, and Malaysia very soon)*

### IP VPN (Virtual Private Network)

For the enterprise e-business in global network, we provide a solution "IP-VPN" (Multi-Protocol Label Switching -MPLS) to enhance the efficiency of data and voice transmission. The whole connection will be processed via the private network without the public network for security and efficiency requirements.

## IP Exchange (Internet peering and transit)

Taking advantage of standardized BGP-4 to exchange the IP traffics with state-of-the art on higher interconnectivities with regional carriers and ISPs in the greater China region and countries in South-East Asia. This is a simple, reliable, scalable solution for the higher quality IP transit and peering services to/from service providers such as carriers, ISPs, ITSPs, ASPs, ICPs and associates of Internet community in China, Hong Kong, Taiwan and the rest of the world.

## Wholesale Termination

International voice wholesale business provides Greater China and international termination services through our global network for international carriers.

### Wholesale feature

#### Extensive interconnection coverage

In addition to Greater China, we also provide stable and reliable direct routes in Asia.

#### Stable and quality routes

By direct connection with major international carrier, we can provide voice termination service of A-Z destination in swap and hubbing models.
